Vancouver-based Product Designer aspiring to make positive impact free of consequences.

Work Experience

Daylight Design — UX Designer / Jan 2021 - Oct 2024
Clients: SCCHA, LG Electronics, Hyundai, SL, EarnIn, Kakao

Collaborated with international clients for in-field research, product design and business strategy development. Served functions as lead designer, project manager, and user researcher. Generated multiple future business opportunities.

Meta — Product Design Intern / Jun 2020 - Sep 2020
Received full time recommendation during COVID-19

Worked with cross-functional partners including engineers, UX researchers, content designers, and other product designers to create dedicated Search result design components on the Facebook app.

PeaceGeeks — Design Intern / Sep 2019 - May 2020

Designed service locating and reporting experience for Arrival Advisor and allowed newcomers to better settle in Canada. Conducted research to learn about skilled immigrants in finding local employment and developed early pilot of the mentorship program SNAPP.

Visier — UX Design Intern / Sep 2018 - May 2019

Designed interactions for navigating HR data visualizations and context, defined motion specs for time-based charts, created visuals for "What-if" components, and outlined button usage for Visier's design system.
